

# The Mobilitätsticket Brandenburg

**Fare Information 2025**

Valid from 1 January 2025

**Verkehrsverbund  
Berlin-Brandenburg**

**vbb.de**

## VBB customer card

The Mobilitätsticket Brandenburg is a personal, non-transferable ticket. It consists of a VBB customer card (VBB-Kundenkarte) with a photo and a value coupon for the respective period of validity and area of validity.

The VBB customer card is issued by the responsible benefits office (e.g. social welfare office, job centre) with a photograph to be provided and first name and surname of the beneficiary. Depending on the benefit received, the customer card is limited in time, usually up to a maximum of 6 months. An extension is possible through the responsible authority. If no more benefits are received, the return of the VBB customer card is requested.

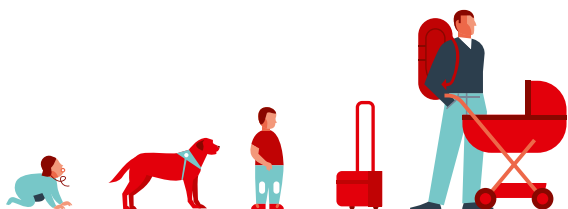

## The monthly ticket

The monthly tickets that can be purchased on a sliding basis (value coupon for the selected area of validity and period) can be purchased from the transport company: at ticket machines, in the customer centres or from the driving staff.

**Please note:** The number of the customer card must be entered on the value coupon by the beneficiary!

## Carriage regulations

The Mobilitätsticket Brandenburg allows children under the age of six, a pram, luggage and a dog to be brought along free of charge. To transport a bicycle, a bicycle ticket is required. It is not possible to take people with you free of charge.

## The tip

The Deutschlandticket is an alternative to the Mobilitätsticket Brandenburg for journeys in more than one Landkreis (rural district) or to Berlin or other states in Germany. It is a personal season ticket and is available as a monthly subscription from your local transport company. A customer card is not required. From 01.01.2025, the monthly price is EUR 58.00.

## Purchase the Mobilitätsticket Brandenburg

**Eligibility for the Mobilitätsticket Brandenburg is granted to current recipients of the following benefits:**

- Those included in the SGB II, including social benefits
- Social welfare (SGB XII, including guaranteed minimum pension and basic security benefits for reduction in earning capacity)
- Integration aid according to Part 2, SGB IX (3rd stage of the Federal Participation Law – BTHG)
- Those included in the Asylum Seekers Benefits Act (AsylbLG)

and members of communities in need

The Mobilitätsticket is valid on all means of transport according to the selected geographical area of validity and can be used as often as desired. It is discounted by 50 percent compared to the VBB-Umweltkarte (VBB environmental ticket) monthly ticket and is exclusively issued as a monthly ticket.

Anyone who receives a subsidy for school transport is not entitled to the Mobilitätsticket. In most cases, school-age children receive a VBB student ticket from the school authority without having to pay their own contribution.

The Mobilitätsticket Brandenburg is not valid for journeys to Berlin.
